

CUSTODIANS MEET AT ITHACA

The Custodians of the Association met at Ithaca the weekend of December 12. Custodians Burchard, Campbell, deBeers, Laise, Sproull, and Withrow were present, and Permanent Financial Advisory Committeemen Levering, Mansfield, and Monroe likewise attended. Members Bailey and Burchard were two other out-of-town attendants.

Discuss Holdings

The Custodians agreed to shift at this time some of our holdings from strictly war stocks to peace stocks, and pursuant to this policy they made the following transactions for the Trust Fund Account:

Sold: 155 shares U. S. Steel Common; and 200 shares Pullman, Inc.

Purchased: 28 shares Standard of New Jersey Common; 45 shares Eastman Kodak Common; 300 shares Commercial Investment Trust Common; 150 shares Phillip Morris Common; and \$10,000 purchase price U. S. Government Series F. Bonds.

In addition to the foregoing, the Custodians authorized the investment of Income Funds in the face amount of \$50,000 in U. S. Government Series F Bonds; and they authorized the withdrawal of \$7,500 from the Ithaca Savings Bank after receiving interest on January 1, 1943, and its investment in U. S. Government Series F. Bonds.

The Custodians and the Permanent Financial Advisory Committeemen thought that these shifts in our holdings constitute the major shifts necessary to prepare our portfolio for the transition from war to peace. There was some discussion on the possible sale of our stock in Scovill Mfg. Co., International Nickel, and North American. Whereas it was recognized that these securities are perhaps not of the best, yet, at the current price level, they appear attractive. With reference to the Chanin Building income bonds and the B. & O. Railroad bonds, it was decided to hold them at the current price with the expectation that some time in the intermediate future an increase in

their market value would dictate sale.

Levering was appointed as a committee of one to investigate further Federal Savings and Loan Associations for possible purchase of additional certificates.

Deep Springs

The Trustees of Deep Springs decided at their mid-November meeting in Chicago to continue operation of Deep Springs during the coming year. After ample discussion of the action of the Trustees, the group of Association men at Ithaca indicated that it was the sense of the body that the action of the Trustees be approved and that the Association continue support to the operation of Deep Springs. Almost everyone felt that Deep Springs has a good possibility of being operated on a satisfactory basis, provided we all give it as much assistance as possible. There were one or two dissents from this conclusion.

Cornell Branch

The group discussed the continued operation of the Cornell Branch for the remainder of the current academic year. The continuance of operation depends upon whether the Army calls up the Enlisted Reservists; should this action be taken, the number of men in the House would be reduced to about six, and at that time the Custodians will take whatever action seems necessary and advisable. One plan which was discussed would involve closing the kitchen and permitting the remaining

men to live in the House. A survey of over seventy fraternity houses on the Cornell Campus, including Telluride House, has been made at the request of President Day to determine available space for housing soldiers. The University is preparing a basic contract for rental of the houses. Furniture and fixtures of houses taken over will be stored by the University, and a fund will be provided for returning in good condition the buildings at the close of the war. The contract will take into consideration the taxes, insurance, and indebtedness, as well as the size and desirability and condition of the individual fraternity, and the terms under consideration are reported generous. The Army has not yet decided to send soldiers to Cornell, but even if the decision is made now, the soldiers would not be ready to move in until June. Parker Bailey for the Judiciary Committee has been appointed to handle legal matters which may arise.

The group discussed at length the possibility of operating the Branch after June, 1943. Although no definite conclusion was reached, it was decided that no committee or officer of the Association should make any commitment to any individual concerning an invitation to Cornell Branch for the academic year 1943-44. The operation of the Branch for another year depends entirely upon whether the Enlisted Reservists are called out by the Army prior to the next school year.

WITHROW JOINS NY LAW FIRM

James R. Withrow, Jr., became a member of the law firm of Donovan, Leisure, Newton and Lombard, 2 Wall Street, on Jan. 1.

Withrow is in his second term as President of the Association. He attended Deep Springs for three years, was graduated from the Cornell Law School in 1935, and has since graduation been working with the New York firm.

Telluride associates Thomas J. McFadden and Ralston R. Irvine, Jr., are members of the same firm.

The News Letter obviously cannot publish the full addresses of our Telluride

associates in the armed forces; neither is it feasible to print our customary Directory. However, we maintain at the Ithaca office a list of the latest addresses, and mail addressed to any of our group will immediately be forwarded from Ithaca.

Please keep the Ithaca office informed of address changes.

CB RUNNER-UP IN FOOTBALL

Cornell Branch and Sigma Phi, each leading its league in the inter-fraternity football contests for the championship cup were both defeated 6-0 by the unbeaten and unscored-upon Vets of Omega Tau Sigma.

Telluride players: Gustafson, Olin, Morris, Klein, Harding, Toole, Beal and Peterson.

HUFFCUT JAP PRISONER

Robert J. Huffcut, according to an official wire from Washington on December 29, is a prisoner of war of the Japanese government in the Philippines. This is the first definite news concerning Bob Huffcut's fate at the fall of Corregidor. The last personal word from Huffcut was a letter to the Chancellor written three days before the capitulation. Effort is now being made through the Red Cross to secure Huffcut's prison number so that we may communicate with him and send things to him.

Early in 1941, Huffcut began work at Manila under U. S. High Commissioner Sayer, and when war began about a year later, he was offered the alternative of returning home with Commissioner Sayer or taking a commission in the U. S. armed forces and remaining in the Philippines. He chose to remain.

BURR VOLUME IN GALLEYS

The Cornell Press has turned over the galley-proofs of the Burr volume to the proofreader, but on account of labor and material shortages, the book will not be ready for distribution until around March 1st.

The volume will contain 490 pages, and

the sales price will be \$3.75. The edition will be limited to five hundred copies. Dr. Roland Bainton of Yale has written a biographical sketch of Professor Burr, and Dr. Lois Gibbons has collected and edited the Burr papers.

PROXIES FOR 1943 CONVENTION

Proxy forms for the 1943 Convention will be sent to all Association members in the armed service within the next week so that everyone will be represented if it is possible to meet in May. Secretary Olin wishes to urge that proxies be completed and returned as soon as possible. Anyone who anticipates leaving the country should be sure that his proxy is on file before his departure.

ARGENTINE GUEST AT BRANCH

Armando d'Ans, Cornell Branch guest for the current academic year, arrived at Ithaca in early December. Invited by the Graduate Guest Committee, d'Ans subsequently received a travel fellowship from the Pan-American Airlines and flew from the Argentine to New York City.

D'Ans was graduated from the University of Buenos Aires in 1936 and is at present Chief Architect for the City of Buenos Aires. He is interested in traffic control, low-cost housing, illumination, and new materials. He is at present occupied with the acoustics and other problems incidental to making plans for a vast open-air theater he has been designated to build for Buenos Aires.

D'Ans designed the Argentine Pavilion at the New York World's Fair, and he has won numerous awards and medals for his work, among them being the Sauberan Scholarship for study in Paris at the Institute of Urbanization.

CB AVERAGES 81.95 IN 1941-42.

The Registrar of Cornell University has announced the scholarship averages and rankings of 71 fraternities and sororities for the academic year 1941-42, and the Cornell Branch stood, as usual, at the top of

the list with an average of 81.95. This average, though at the top, is distinctly below the standard usual to the Branch.

BURR MEMORIAL FUND

The George Lincoln Burr Memorial Fund has received contributions of \$994.91 since November 1, in cash and War Stamps. With matching of all contributions by the Association, the total in the Fund is now \$11,915.06 -- within \$3,100.00 of the goal.

One interesting development of the past two months has been the rise in the percentage of active Association members contributing to the Fund. The figure now stands at 74%. The Endowment Committee plans to continue work on the Burr Fund in order to complete it early this spring.

DEATHS

Mrs. W. Paul Jones of Ames has recently suffered the loss of her two sisters at Terra Haute, both well known to older Telluriders. Mrs. Clara Mae Himmelbauer died on April 7, and Mrs. Grace Demaree Drosberger died on August 30.

Robert Crichton reports the death this autumn of his mother, Mrs. George N. Crichton.

F. S. Bird died of a heart attack on August 21, 1941, according to belated word to the News Letter. Bird is survived by his widow and by one son, Frank Stanley, Jr. Mrs. Bird's address is Aggieland Inn, College Station, Texas. The son was graduated last spring from the A. & M. College of Texas in EE and is now overseas as a 2nd. Lieut. in the Army.

Benson Landon, Jr., 51, died suddenly at his home in Winnetka, Ill., on Dec. 26. Interment was at Memorial Park, Evanston. He is survived by his widow and two sons, Robert and Richard.

Landon was a Constitutional Member of the Association. He worked at Association Branches in Utah and Idaho and studied architecture at Cornell University 1913-17.

During World War I Landon served in the Navy, and for the past 23 years he was President of the Bennett-Landon Web Co., manufacturers of elastic webbing.

PERSONAL ITEMS

CARL ALLEN is a Captain, NMB, with the War Department at the Hq. of the Services of Supply in Washington.

1st Lieut. WAYNE BANNISTER is in French Morocco where he landed under artillery fire about November 8th.

S/Sgt. JOHN MURRAY has moved again and is now at APO 737, care of the Postmaster at N. Y. City. He reports that he is finding time to get caught up with some reading he was unable to do in college.

2nd Lieut. MARTIN W. HESS reported for duty on December 26 to take a refresher course in anti-aircraft at Ft. Eustis, Va.

Pvt. WILLIAM BOYNE, about half way through his basic training period at Camp Breckinridge, is a member of the Division Headquarters Company.

DAVID WITHROW is handling important work connected with tests of unstable drugs.

Pvt. RANDOLPH NEWMAN is with the 405th T.S.S. at Sheppard Field, Texas.

JOHN M. NEWELL passed his civil service examination in April and was appointed a senior chemist at the Massachusetts Antitoxin and Vaccine Laboratory at Boston.

Dr. WALTER CERF of Northwestern University teaching staff has transferred from the Dept. of Mathematics to the Dept. of Philosophy.

FRED H. BIRD on Jan. 5 left Chicago for the Nashville, Tenn., cadet training base. For about two years Bird reported for the Tribune and the Sun before his induction.

HAROLD E. ATKINSON is Chief of the Design and Development Group of the Camouflage Branch, Engineer Board, at Fort Belvoir. His task is to develop the materials, methods, and techniques of camouflage, and he works on protective concealment of all types.

For a number of years Atkinson has worked in Cleveland. The coordination of the recreation planning for the greater Cleveland area and the development of the Ohio barge canal lands into a recreational area are two projects halted by the war. His first job in Washington was that of Site Planner with the Public Buildings Administration, and his best problem with PBA was the Site Plan for the Cleveland Aeronautical Experimental Station. From PBA he transferred to the War Dept. to design site plans for cantonments, hospitals, and other military installations. The War Dept. then detailed him to his present work with the Camouflage Branch.

Atkinson in February, 1942, married Miss Margaret Fleming, commercial artist and interior decorator. Address: 181 Yale Dr., Alexandria, Virginia.

CASEY ROBINSON has been elected to write the screenplay for Irving Berlin's "This is the Army," the all-soldier show, from which all revenues go to the Army Emergency Relief Fund. Robinson contributed his services free. This will be his last task with Warner Bros. after eight years of work with them. He is forming his own organization to write and produce his own pictures.

BERTIL PETERSON (Height 6'6", Wt. 225) plays center position on the Cornell basketball team. Travel difficulty confined the team's annual Christmas trip to five days in New York, New Jersey, and Pennsylvania. On successive nights Cornell played pre-season games with the University of Rochester, Seton Hall and Albright. Play in the Ivy League began Jan. 3 when Cornell met Columbia, 49-40.

WILLIAM J. BOWMAN has been transferred by Alcoa from Massena, N. Y., where he has been doing personnel work, to a similar job in South America. Address: Box 218, Paramaribo, Suriname, S. A.

PRENTICE BACON in Dec. accepted an appointment with Naval Research Laboratory. Address: 821 Alabama Ave., S. E., Washington, D. C.

THOMAS GILLIARD, Asst. Curator of the Dept. of Birds of the American Museum of Natural History, has left for Brazil to work for Rubber Reserve. He plans to remain in Brazil for the duration. Gilliard has only recently returned from an expedition to Colombia. Address: The Defense Supplies Corp., Manaus, Brazil.

JOHN U. ANDERSON is with Battery B, 513th C. A., (AATC), at Ft. Bliss, Texas.

Lieut. Commander MCREA PARKER, stationed in Washington, is with the Engineer Corps of the Navy.

ROBERT F. HAMILTON has left Denver and has purchased a new home at 5749 Redwood Lane, Dallas, Tex. He continues his work with the Folaroid Corp.

Major DANIEL BECK is serving as utility engineer at Anchorage, Alaska.

Major CLIFF MCSHANE is stationed at an air training base at Pecos, Tex.

Captain EUGENE TANNER is serving with the 104th Field Artillery at Camp Forest, Tenn.

HUNTINGTON SHARP is in the Catalog Circulation Dept. of Montgomery Ward in Chicago. His job is to put into writing the steps that must be taken by each of the nine Ward mail-order houses to get the catalog into the hands of six and one-half million potentially profitable customers.

Pvt. A. VENABLE MARTIN is a reservist in the Army Signal Corps. He is attending courses in electronics and ultra-high-frequency technique and expects shortly to enter active duty with chances at officer's training school. By training, Martin is a mathematician.

Martin and Miss Gerda Range of San Diego were married in Jan., 1942. Mrs. Martin is a graduate in economics at the Univ. of Wisconsin and now works for the regional office of the War Labor Board in Chicago. Address: 156 S. Hamlin Ave., Chicago, Ill.

MORGAN SIBBETT has been promoted to a captaincy and continues his work in Washington with the Services of Supply.

CHARLES L. DICKINSON, for 10 months executive secretary of Free Farmers, Inc., has returned to his work with the GIF, one

of the largest farm cooperatives in the country. As head of the Free Farmers, an organization to combat the attempt of John L. Lewis to invade the N. Y. milkshed, Dickinson in his campaign secured signed pledges from more than fifty thousand farmers to oppose the Lewis move. Dickinson will continue to serve the Free Farmers in an advisory capacity.

For a number of years Dickinson has been one of the most active men in the state in connection with the dairy industry.

PAUL ARTHAUD is in the Air Corps Enlisted Reserve at Carrabelle, Florida, awaiting his call for Aviation Cadet training.

Lieut. ALBERT ABDROSS (AFB 584, Jefferson Barracks, Mo.) sends his greetings to us all. He writes, "I'm highly expendable, but I'd hugely enjoy hearing from the gang."

CHARLES H. SCHAAFF is Vice-Chairman of the Blood Donor Service for the City of Rochester, in particular charge of enrollment and publicity. Schaaff's group has collected more blood per capita than any of the 24 cities engaged in the work, and recently the Army and Navy awarded the "E" to his Blood Donor Service.

Private BRUCE NETSCHERT continues his training with the 804th T. S. S. at Sioux Falls, S. D.

FREDERICK E. BALDERSTON has joined the American Field Service, APO 616, % Postmaster, New York City. This is the same group with which Christopher Morley, Jr., has spent the past year at the HQ. of the British Armies of the Near East, Cairo, Egypt.

Private NED REDELL (35764102) has begun service in the Tank Corps. Address: ARFTC - 18A, Ft. Knox, Ky.

SIDNEY S. WALCOTT, President of the Richardson Boat Co. of North Tonawanda, N.Y., is manufacturing wooden lifeboats.

JOHN DAVENPORT this autumn became Business Editor of Time. For a number of years Davenport was a financial writer on the staff of Fortune.

Conscientious Objector ARTHUR WISER, drawn in the draft in November, has been sent to C. P. S. No. 52, Powellville, Md.

Naval Lieut. PAUL SMITH, son of alumnus A. D. Smith of Salt Lake City, completed his indoctrination course on the Cornell Campus on 22 Dec. and departed for Boston

to complete his study. He was a visitor at the Branch briefly on the 22nd.

PAUL SWATEK is at Louisville as Resident Engineer on a job of constructing a pump house for a synthetic rubber plant.

TEH-CHANG KOO, in Rangoon last year, is now at Karachi, India, a port city on the west coast near the Baluchistan border. On a diet of cucumbers and spring-water, Koo drove out of Burma with a truckload of precious equipment with the breath of the Jap hot on his neck, and his account of the great retreat is a saga. Koo writes: "Cholera and typhoid were raging all along the Road and nobody could hardly get a bite without having to worry about how long you would live afterwards. I stuck to my spring-water and cucumber diet. Just as soon as I got to Kunming, I received further orders to come out here to work. So having lost all what I had in Burma, I left China with nothing but a torn shirt and a pair of old khaki pants. My shoes were given to me by a friend as mine had long worn out their tenth layer of newspaper." Koo reports that he is "short of reading matter, particularly magazines."

Lieut. HORACE PETERSON, of the Dept. of History of the University of Okla., is stationed at Miami.

WALTER AND MARYDEL BALDERSTON now work at W. R. A. Project, Poston, Arizona. The Balderstons both teach young and old at their Japanese-American way station. They find life "strenuous but very interesting".

KARL SCHMEIDLER of the Cornell Debate Team, upheld in debate with the University of Rochester on Dec. 4 the affirmative on "Should the United Nations form a federal union after the war with power to disarm and establish an international police force?" LLOYD KLEIN supported the negative on the same question in a debate with Boston University on Nov. 26.

HERBERT GUSTAFSON has been admitted to membership in Tau Beta Pi, Honorary Engineering Society. Gustafson will be graduated from the College of Civil Engineering in January.

Ensign RICHARD B. KEIGLEY, June graduate from the law school of the University of Illinois, is attached to the Staff of the Service Force of the Pacific Fleet. He got his naval training in Rhode Island.

Sgt. WARD H. GOODENOUGH has been assigned to the Research Branch, Special Services

Division of the War Dept. in Washington.

J. CARY OTHUS resigned his professorship at Oregon State and since April has been Vocational Supervisor for one of the Kaiser Company shipyards in the Portland area.

DAVID J. NELSON, New York City lawyer and certified public accountant, was tendered a dinner by the members of the Long Island University class in Cost Accounting for War Production on the evening of 8 Sept. Nelson has concluded his second series of intensive lectures on Cost Accounting for War Production and began a new class on 24 Sept. His students are lawyers, CPA's, executives of corporations and government departments, etc.

HARVEY S. GERRY, Lieutenant-Colonel AUS, is at Allied Force Headquarters, APO 512, % Postmaster, New York.

DAVID RICHARDSON is a senior at the University of California, majoring in psychology. He is doing work under the V-7 Plan.

J. A. BULLOCK, General Manager of the Western Colorado Power Company, was elected vice-president of the Rocky Mountain Electrical League at their annual meeting in Denver on October 16-17.

Bullock was appointed this autumn by the Governor of Colorado to represent the state at the 35th Conference of the National Tax Payers Association at Cincinnati.

The Reverend JOHN H. ROSS continues his endowment work for educational institutions of the Methodist Church, at present in Ohio. Mr. Ross gives up-to-date news on the activities of the Ross boys. 1st. Lieut. Robert Ross is in Alaska. John Ross was graduated on Dec. 24 from JTC school at Camp Davis, N. C.; Gordon Ross Captain, has headquarters at Ft. Lewis., Wash.; Philip Ross as a MM 2nd Class in the Navy was sent to Miami and graduated as an engineer, and after experience on a sub-chaser is back in school for a higher rating as a gunner. Mr. Ross sends his regards to all his Telluride friends.

KURT BERGEL, Deep Springs teacher of German and history, read a paper at the 44th annual meeting of the Philological Association of the Pacific Coast, held in Los Angeles on Nov. 27-28. The title: A Contribution to the Interpretation of

Rilke's Fourth Duino Elegy.

ALBERT ARENT has a new position as Chief Trial Attorney in the Alien Property Unit of the Department of Justice. He resides in Chevy Chase, Md.

Dr. L. F. AUDRIETH is a Captain in the Division of Chemical Warfare. Audrieth, Associate Professor of Inorganic Chemistry at the Univ. of Illinois, resigned the editorship of the Phi Lambda Upsilon Register (honorary chemical society publication) in June prior to reporting for service as Chief of the Research Division at Picatinny Arsenal, New Jersey.

J. B. TUCKER, JR., is an Ensign in the Naval Supply Corps. He starts training at Harvard -- Soldiers' Field -- in Jan.

DONALD BOOTH continues his work with the Dravo Company. He is in charge of a plant which builds ships and cranes.

DR. WILLIAM C. LAYTON is a 1st. Lieut. in the Medical Corps, stationed at the Huff General Hospital in Santa Barbara.

LEWIS LAWRENCE began study this autumn at the Harvard School of Business.

Since the African invasion, CHARLES COLLINGWOOD has been broadcasting his daily news from the Headquarters of the Allied Force in North Africa. He has for about two years been broadcasting from London over CBS.

DAVID B. SPALDING received a Certificate in Meteorology from Cal. Tech. on November 30. He has been commissioned a 2nd Lieut. in the Air Force.

J. R. HARSCH writes under date of Dec. 15: "I have been rustivating at home most of the time for the past six months, with somewhat poor health, but am now well enough again to try working steadily and am expecting within a matter of days to go to work in auditing activities in one of the important defense plants located in Toledo, possibly at the place where they make all the Jeeps." He adds that he will be glad to meet any Telluriders, young or old, who come his way.

HARVEY WELLMAN has given up the practice of the law for the duration and has accepted a position with the State Department in Rio de Janeiro. The State Department has a Division of Foreign Funds Control, which works closely with B. E. W. and also with the Coordinator of Inter-American Affairs, and Wellman is going to work in the field with that Division.

THOMAS J. MCFADDEN, a Lieutenant in the Navy (A. V. S.), is stationed at Quonset Point, R. I.

FRANCIS TETREAUULT is a Shipfitter with a Maryland shipbuilding company. Tetreault began work in the spring at the close of his first year in Cornell Law School and is continuing his study at the University of Maryland Law School while ship-building.

WILLIAM SPALDING, 2nd Sig. Service Bn., Washington, D. C., writes that he is working harder than he ever did in graduate school.

WILLIAM C. BOYNE is stationed at Camp Breckinridge, Ky. Address: Hq. Co. APO 98, 98th Division. He writes that he hopes the News Letter can be kept going.

CHARLES ENNIS, overseas since June, is reported in the best of physical shape. His address is - B-52409 GNR, Charles E. Ennis RCA, # 5 C. A. R. U., Canadian Army Overseas.

ELIZABETH CONGDON BOOTH, FIRST CHILD OF DONALD AND ELIZABETH BOOTH OF SEWICKLEY, PA., WAS BORN ON SEPT. 1. Weight: 5-11.

REICH INSTRUCTORS TECHNICIANS

Dr. Herbert Reich attended a conference at MIT in October, 1941, as the representative from Illinois, to establish in 40 schools a defense course for training men in ultra-high-frequency techniques. The course covers the fundamental principles involved in airplane locator equipment. It was in connection with this course that Reich collaborated on Ultra-High-Frequency Techniques, writing four chapters of the volume, which has sold over 6,000 copies. "Although all the information contained in the book has appeared in technical periodicals, wrote Reich to the Chancellor, "the Navy suddenly got the idea a few weeks ago that we had published highly confidential material. We were afraid for a while that they would attempt to stop further sales, but so far as I know

the matter has been dropped. If you should hear of my being in the penitentiary, you will know that I wrote something about Newton's laws or some equally secret information." The book referred to is Reich's third; in addition to these volumes, the historical files of the Association contain about forty articles written by Reich for technical journals and publications.

Reich has designed and supervised the construction of the special equipment for their course at Illinois which he teaches; he teaches a course in electronics one night weekly in Peoria and teaches ground school for C. F. T. four nights weekly. He still manages to find time to do a bit of flying; at present he has 130 hours of solo flying to his credit. He is a member of the Civil Air Patrol.

HISTORICAL FILES

The Association has received from 1st Lieut Carl Allen three studies prepared by him for the War Department between Oct. 1941, and March, 1942, while he was employed by the International Business Machine Corp. The system has not only been put into effect, but at present is the nucleus of the War Dept.'s control of its Production Program. The titles: "Plan for Determining and Controlling Defense Items and Raw Material Requirements in the War Department," "The Computation of Basic Industrial Material Requirements," and "Tentative Standard System for Computation of Supply Requirements."

Sidney Walcott has turned over to the Association files a collection of 39 pictures taken at Beaver, Olmsted, and Grace. This group of pictures makes an excellent addition to our large collection of early-day Telluridiana.

John Dieffenderfer has given the Association his collection of films taken during the 1942 Convention. Since the official picture proved worthless, these Dieffenderfer films are of much value and interest.

Dr. Herbert J. Reich has sent in six items: "Trigger Circuits," published in Electronics, Aug., 1939; "A Ballistic Meter for Measuring Time and Speed", from Rev. of Scientific Instruments, Feb., 1941; "The Use of Vacuum Tubes as Variable Impedance Elements," from Proceedings of the I. R. E., June, 1942; "Noise Suppression in Frequency Modulation," published in Communications, Aug., 1942; "Ultra-High-Frequency Techniques," published by Van Nostrand Co. in 1942; and "Principles of Electron Tubes," published by McGraw-Hill, 1941.

The Association has received from President Withrow a copy of "The Control of War Profits in the United States and Canada," first published in the Univ. of Penn Law Review, November, 1942.
